PARQUET COLLECTION

BEAUTY IN EVERY DESIGN

Four laying patterns, one natural material. Choose the rhythm that suits the size and character of the room.

1-STRIP

The grandeur of wide wood planks distinguishes large spaces with a smooth and well-balanced wooden look. Single-strip planks give greater depth to spacious rooms and long passages.

2-STRIP

Each plank displays a 2-strip pattern to create a distinct and individual look. Ideal for mid-sized rooms, the mix of patterns gives the room an expansive and open appearance.

3-STRIP

The versatile 3-strip style suits any room size, combining the vintage parquet impression with a modern edge.

HERRINGBONE

The versatile herringbone range offers the flexibility to customise every living space.

SURFACE OPTIONS

FINISHES & EDGES

FINISHES

SATIN LACQUER

Adds lustre to the wood without hiding its character. It makes the surface pleasant underfoot as well as easy to maintain.

MATT LACQUER

Gives the impression of pure, untreated wood. The subtle finish keeps the natural look while making the floor more durable and easier to clean.

BRUSHED

Mechanical brushing brings out the natural structure and texture of the wood. Combine it with a bevelled edge or a coloured stain.

SMOKED

Wood, especially oak, is treated to give each plank a dark and smoky look. Preferred by the imaginative and artistic.

STAINED

Adds elegance and sophistication to any wood. The finish harmonises the natural variation of the wood without covering its detail.

EDGES

BEVELLED EDGE

Accentuates each plank for a traditional floorboard feel and a more rustic, classical impression.

MICRO-BEVELLED EDGE

Small, eased edges that are virtually unnoticeable and give a seamless connection between joints.

SQUARE EDGE

A smooth, uniform surface that joins plank to plank for a contemporary and sleek look.

MARQUETRY COLLECTION

TAILOR-MADE MARQUETRY

Beyond the standard range, we produce marquetry panels to your own design: geometric, floral or classic patterns combining oak, walnut and other species.

YOUR DESIGN, OUR WORKSHOP

Pattern, wood species, finish and panel size are agreed per project. Send us your drawing or reference image.
