16 × 600 × 2800 mm
Wood slats on acoustic felt

BUILT IN LAYERS

Each FloorLaBs wall panel combines a dense, stable core with a hard-wearing decorative surface.

01 UV-protective layer

Shields the surface against UV light so colours stay true over time.

02 Decor surface

Realistic wood decors or solid colours in two finishes: velvety Soft Touch and low-sheen Pro Matt.

03 MDF core

Medium-density fibreboard: rigid, straight and easy to cut.

Easy installation

Fix with panel adhesive or screws/clips straight onto the wall or a batten frame.

Floor-to-ceiling length

2800 mm panels cover a standard wall height in one piece.

Easy to clean

Wipe with a soft, damp cloth. No special care needed.

Mix and match

All profiles are available in the full colour chart.

ACOUSTICA 6016	16	600	2800	3	5.04	30.0

m² per pack is the covered wall area after joining. Width is the nominal panel width.

Installation guide

1. **Acclimatise**
   Store the packs flat in the room for 48 hours before installing.
2. **Prepare**
   The wall must be dry, flat and clean. On uneven walls, fix a batten frame first.
3. **Measure and cut**
   Start from a straight vertical line. Cut with a fine-tooth saw, decor side up.
4. **Fix**
   Apply panel adhesive in vertical beads, or screw/clip through the panel edge into the battens.
5. **Join**
   Slide the next panel into the joint and press firmly along the full length.
6. **Finish**
   Use matching trims at corners, edges and ceiling for a clean result.

Tip FloorLaBs mounting adhesives and sealants are shown in our Sealants & Adhesives catalogue.

Care Clean with a soft, damp cloth and mild detergent. Do not use abrasive cleaners or solvents. For interior use.
